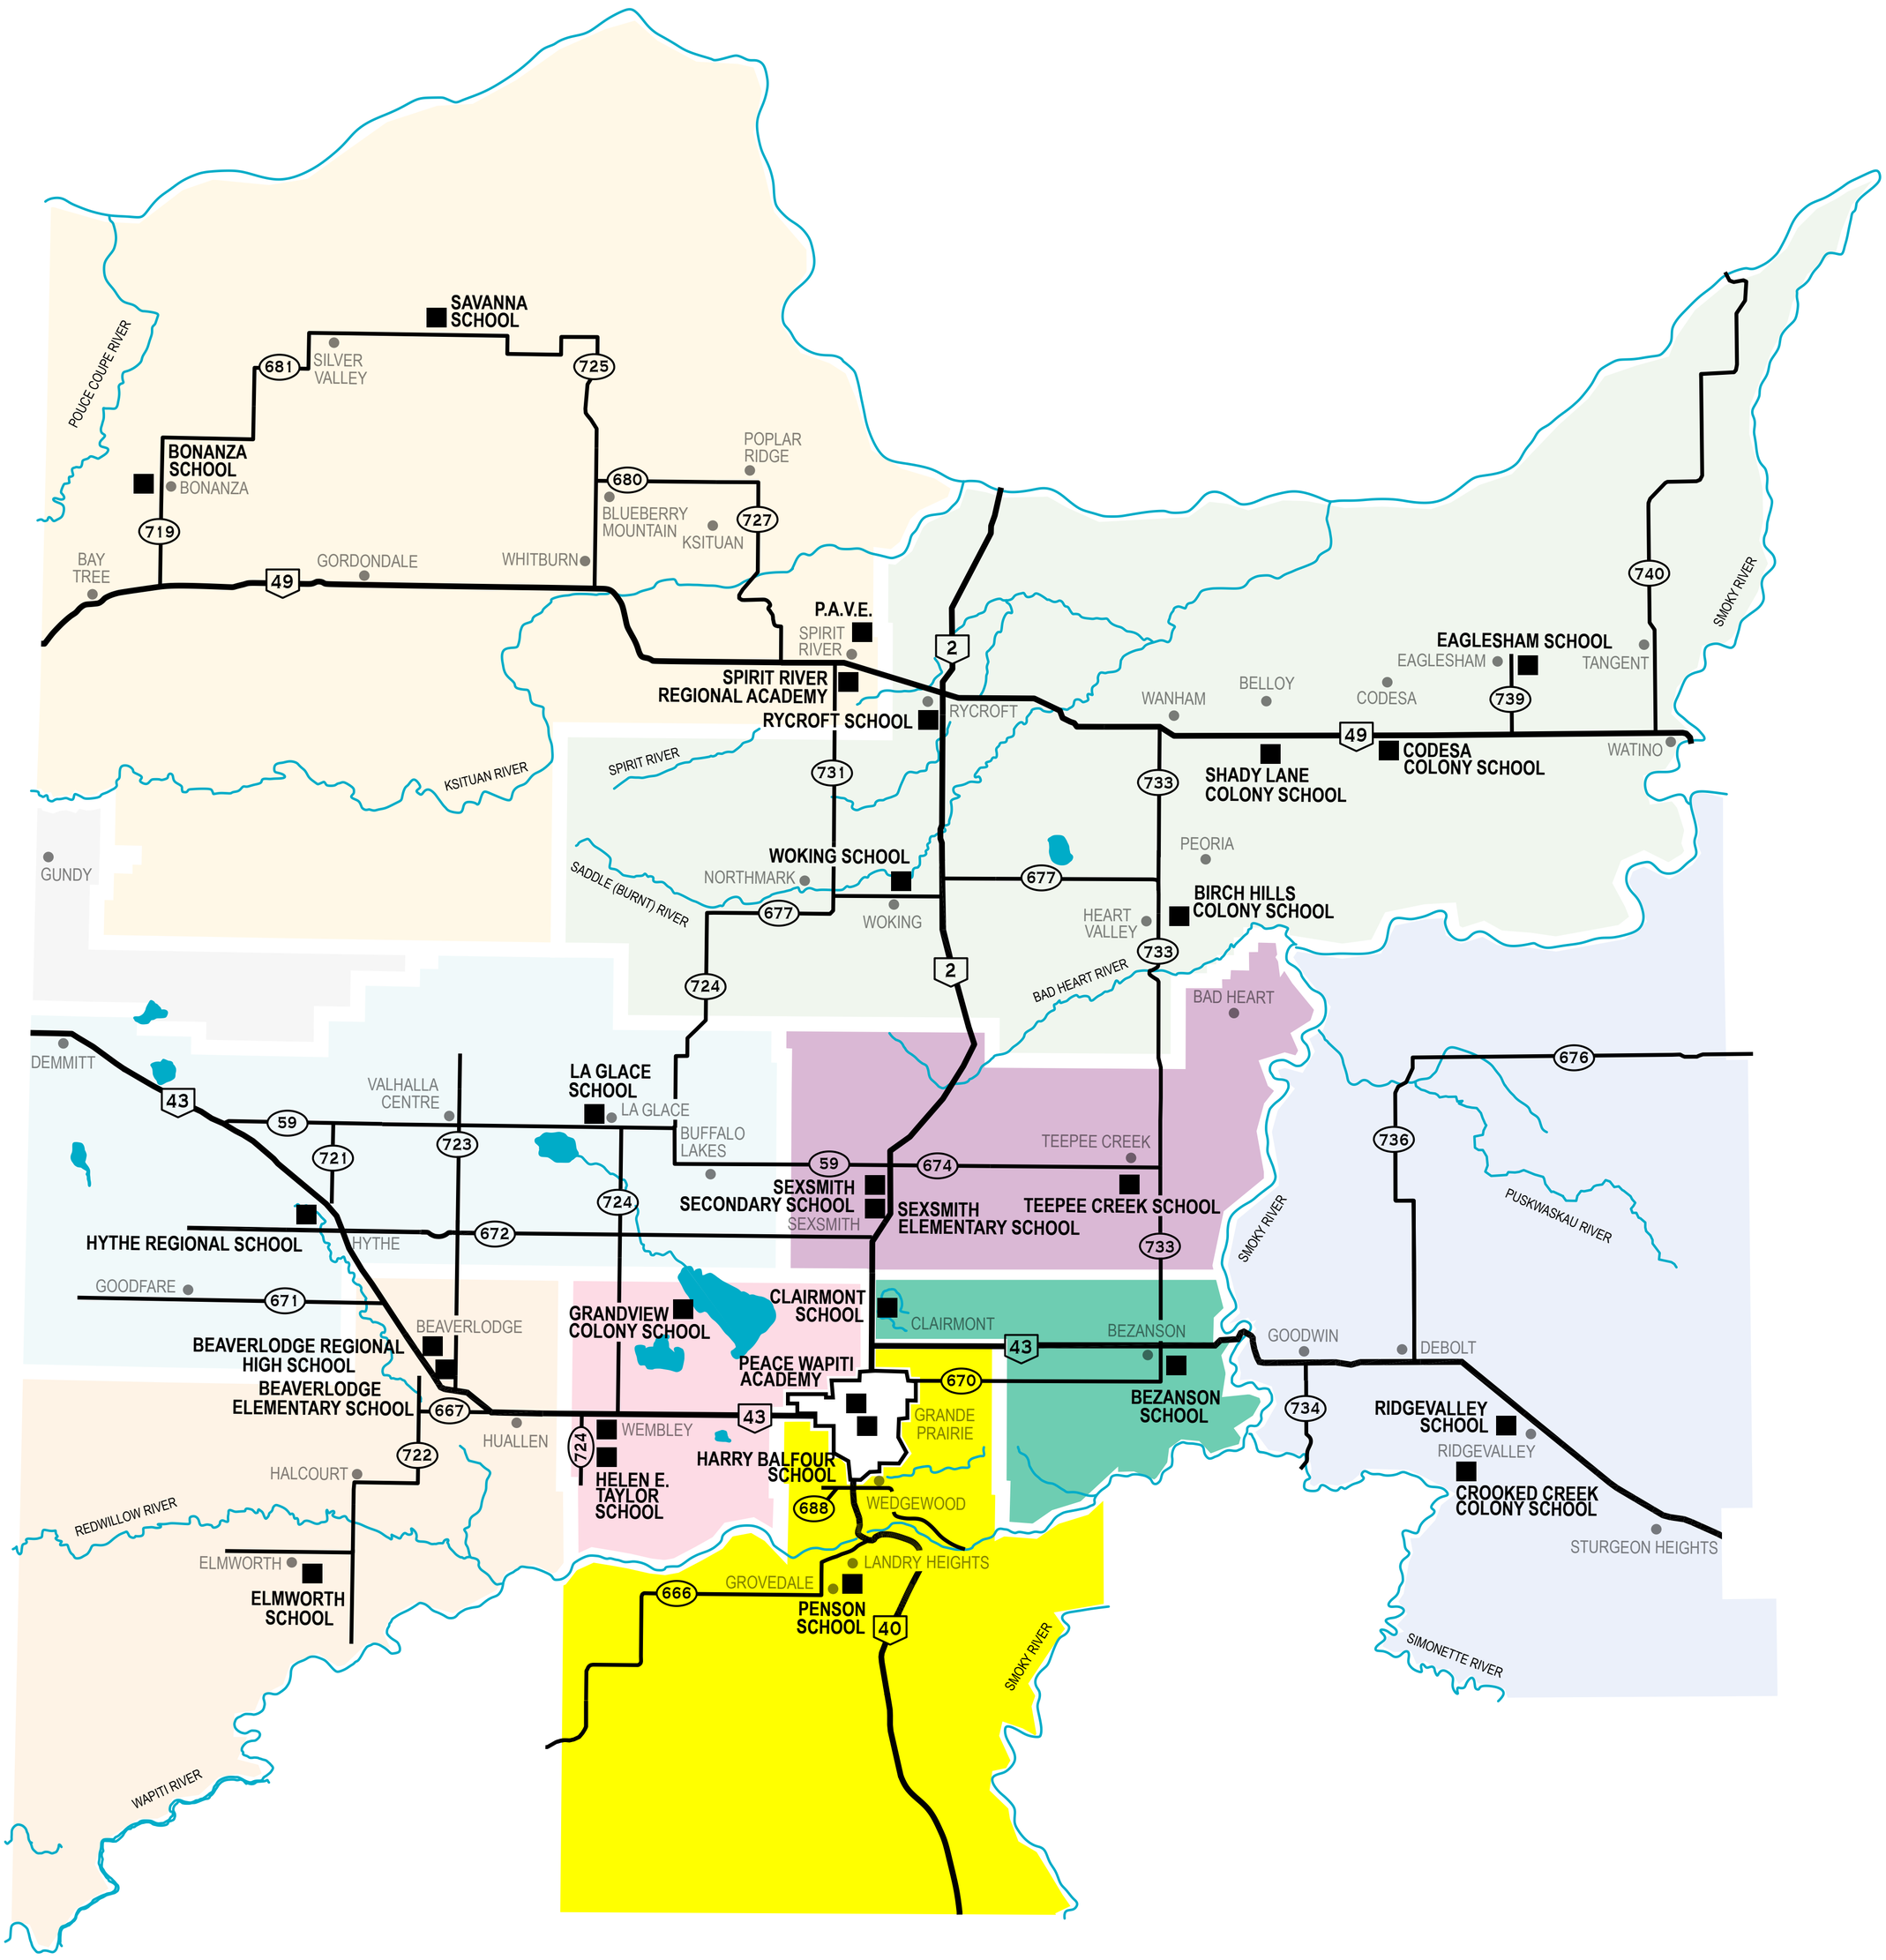
ALTERNATIVE 2

(9 wards, 9 trustees, alternative boundaries)

1 2 3 4 5 6 7 8 9



Another possibility to Alternative 1 (with 9 wards with 9 trustees), PWSD could combine the current Ward 9 with the current Ward 7 and create a new Ward 9 from parts of Wards 5 and 6. This would better address the representation by population issue, assist in maintaining the high school attendance area within the wards and would also better reflect communication and transportation networks.
