PREFACE

This manual was developed to assist in understanding the school bussing system throughout our division. It provides an overview of specific responsibilities within that system.

Within broad guidelines established by the Board, the responsibility for the school bus transportation system is delegated to the Director of Transportation and members of his staff. The Board has also adopted several specific policies relating to school bus discipline, emergency procedures, and the like, but it is stressed that a safe and successful transportation operation requires the cooperation and understanding of students, parents, bus drivers, school administration and School Board Administration.

This manual is published in order that students, parents and all other concerned with the safe operation of the bussing system have the opportunity to become aware of the major factors and interlocking responsibilities which combine to provide a safe and adequate school bus service.

GENERAL AND LEGAL

1. The School Act authorizes school boards to provide transportation. Peace Wapiti School Division #76 has chosen to operate a school bus system for the convenience of students and parents in the Regional District. Therefore, the authority to establish rules and procedures governing that school bus system rests with the Board.

2. Students who choose to jeopardize the safety of the bus or fellow passengers may loose their right to access the transportation system.
Day-to-day administration of all school bus services is the responsibility of the Transportation Department of the School Board Office. School buses in your division are managed by the Director of Transportation.

Questions or problems relating to specific bus routes should be referred to the Director of Transportation.
SECTION II
RESPONSIBILITY OF THE PARENT(S) OR GUARDIAN

1. General
Parents will obviously play the key role in influencing their children in all aspects of safety, at home, at play, and going to and from school. This is particularly true of younger children.

2. Parents can promote school bus safety in the following ways:
   (a) Go over with and discuss with your children the contents of this booklet, particularly the responsibilities of the students.
   (b) Provide extra help and guidance during the first several weeks of school, especially for kindergarten, grade one and grade two students. The children must have a good understanding of the location of bus stops; behaviour while waiting for buses, as well as on board; what to do when buses are late, etc. Safety is of utmost importance and should be emphasized by the parents.
   (c) Report any obvious and significant safety problems to the Director of Transportation giving specific details as to bus number, date, time, place, etc.
   (d) Remind children that even though all vehicles are required by law to stop when flashers are in operation on a school bus, vehicle drivers are sometimes negligent or careless and do not stop when they should, therefore, children should always proceed across the road with utmost caution.
   (e) Promote an awareness in other drivers that it is a traffic offence to pass IN EITHER DIRECTION a stopped school bus with its red lights flashing.

3. What parents should be aware of regarding school bus service:
   (a) Students should be at the bus stop at least 5 minutes before the normal pickup times.
   (b) Parents having problems concerning bus routes or pickup points should be referred to the Director of Transportation of the School Board.
   (c) Parents are responsible for students until they board the school bus and following unloading at their designated stop in the afternoon.
   (d) Parents will be responsible for willful damages to school buses caused by their children.
   (e) When the bus transportation privileges of a student are suspended, under the provisions of School Board policy, school attendance is still mandatory and the parents must make their own alternative arrangements. Transportation Assistance Allowance will not be paid in those circumstances.
   (f) Be aware of Board Policy relating to general suspension of transportation services through emergencies, such as inclement weather.
   (g) Provide written note or phone call to the driver, or contact dispatch to relay a message, if your child is to return home by any other route than normal, or is not to ride the bus home at all.
Please be aware of the following school bus policies:
