June 4, 2020

Dear Parents,

We will be asking all families to purchase the needed supplies for their children once again this year. You will find attached to this letter a supply list for the grade(s) your child(ren) is/are entering, as well as an info letter from School Start with instructions if you choose to order from them. You are welcome to take the list to a store of your choosing if you prefer. Please note, all items on the list will be required. Teachers have made the lists according to what students will require on average; if your child has used or lost everything, teachers may contact you to request replacements of those items as needed throughout the school year.
